

# Would you like to talk with a parent of a transgender child?

We are parents of a 22-year-old transgender child who began his transition at age 14. We know from experience that parents sometimes feel like they are the only family in the world with a transgender or gender-questioning child. You may have questions, issues, and concerns that you want to run past someone who has been through what you are going through. We don't have all of the answers, but we have listening ears and caring hearts. Please feel free to call one of us or send an e-mail, and we will respond promptly.
