

**Pediatric Hematology Oncology Recent Fellowship Alumni**

| <u>Graduation Date</u> | <u>Name</u>                     | <u>Current Position</u>  | <u>Clinical/Research Interests</u>  |
|------------------------|---------------------------------|--|---|
| 2020                   | <u>Meghan McCormick, MD, MS</u> | Assistant Professor of Pediatrics<br>UPMC Children's Hospital of Pittsburgh  | Interest in Benign Hematology, Transfusion Medicine, Supportive Care Practices  |
| <b>2020</b>            | Erica Braverman, MD             | Assistant Professor of Pediatrics<br>UPMC Children's Hospital of Pittsburgh  | Cancer Immunotherapy, Tumor Immunology, Inflammation, T-Cell biology, Immunometabolism  |
| 2019                   | Lisa Maurer, MD, PhD            | Assistant Professor of Pediatrics<br>UPMC Children's Hospital of Pittsburgh  | Investigating protein biology in hematologic malignancies including protein-protein interactions that regulate cancer cell proliferation and survival |
| 2019                   | Allison Close, MD               | Assistant Professor<br>Michigan State University<br>Helen DeVos Children's Hospital  | AYA oncology and oncofertility  |
| 2018                   | Deirdre Nolfi-Donagan, MD       | Assistant Professor of Pediatrics<br>UPMC Children's Hospital of Pittsburgh  | Interest in platelet biology, benign hematology and thrombosis.   |
| 2018                   | Kaitlin Stanley, MD             | Heme/Onc/BMT Hospitalist,<br>Children's Hospital of Philadelphia   | PTLD, pediatric cancer predisposition syndromes and rare pediatric malignancies   |
| 2017                   | Danielle Bell, MD               | Attending Physician<br>Pediatric Hematology-Oncology<br>Ascension St. John Hospital Medical Group  | Solid tumors, leukemia and health care disparities  |
| 2017                   | Brittani Seynnaeve, MD, MS      | Assistant Professor of Pediatrics<br>UPMC Children's Hospital of Pittsburgh<br><br>Director, Pediatric Melanoma Program<br><br>Associate Program Director,<br>Pediatric Hematology/Oncology Fellowship | Development of a pediatric melanoma interdisciplinary treatment center, Diagnosis and management of pediatric melanoma and related melanocytic tumors |
| 2016                   | Angela Girvin, MD               | Assistant Professor<br>University of Rochester Medical Center<br>Golisano Children's Hospital  | Clinical research to improve the supportive care of oncology patients, quality improvement research, clinical guideline development                   |
| 2016                   | Seethal Jacob, MD, MS           | Assistant Professor<br>Indiana University School of Medicine<br>Riley Children's Hospital  | Sickle cell disease especially transitioning process of patients to adult providers, health information technology                                    |
| 2015                   | Rachael Courtney, DO            | Director, Pediatric Residency Education<br>St. Jude Research Hospital<br><br>Physician, Hospitalist Medicine Program<br>St. Jude Research Hospital   | Cancer genomics, education  |
| 2015                   | Paul Finch, MD                  | Pediatric Hematology Oncologist<br>Cabell Huntington Hospital  | General pediatric hematology and oncology   |
| 2014                   | Nitya Bakshi, MD, MS            | Assistant Professor of Pediatrics<br>Emory University<br>Children's Healthcare of Atlanta  | Qualitative clinical research in understanding pain in sickle cell disease  |
| 2014                   | Lynn Malec, MD, MS              | Assistant Professor of Pediatrics<br>Children's Hospital of Wisconsin  | Recombinant factor in immune tolerance Hemophilia A patients  |

Medical Director,  
Comprehensive Center for Bleeding  
Disorders

with inhibitors; Prevention of  
central line thrombosis in  
chronically ill children; Cost  
effectiveness of screening for  
bleeding complication
